EXPERIENCE

MAR 2023 - PRESENT

Full-Stack Developer

O-Technique International Myanmar Co., Ltd

- Develop scalable business applications using Next.js, NestJS, TypeScript, and SCSS.
- Build reusable list, detail, and advanced search experiences across frontend and backend.
- Collaborate across product, design, and engineering to deliver responsive production features.
- Investigate defects, resolve production issues, and improve application behavior across devices.

JUL 2019 - AUG 2021

Front-End Developer

Management Partners Myanmar Co., Ltd

- Built responsive web interfaces with Vue and Laravel.
- Delivered the complete frontend UI for a Flutter mobile application.
- Translated product requirements into maintainable, device-ready experiences.

JUN 2016 - FEB 2019

Web Developer

Host Myanmar Co., Ltd

- Created WordPress and custom websites with semantic HTML, CSS, JavaScript, jQuery, and PHP.
- Worked across frontend and backend delivery from initial build through launch.

Selected Projects

RECENT SYSTEMS & EARLIER FRONTEND WORK

- 01

Admin Kenkou Kanri
2023 - 2024 / NEXT.JS, NESTJS, TYPESCRIPT, SCSS
Internal health-management administration platform. Delivered frontend and backend functionality, including reusable list pages, detailed views, and advanced search workflows.
- 02

Matching Kenkou Kanri
2023 - 2024 / NEXT.JS, NESTJS, TYPESCRIPT, SCSS
Responsive matching and operations system. Owned features across the stack, integrated search and detail workflows, and optimized the experience for mobile, tablet, and desktop.
- 03

Hanbai Kanri
2024 - 2025 / NEXT.JS, NESTJS, TYPESCRIPT, SCSS
